

Start by printing this page, making sure you're printing it actual size to ensure you have the correct scale.

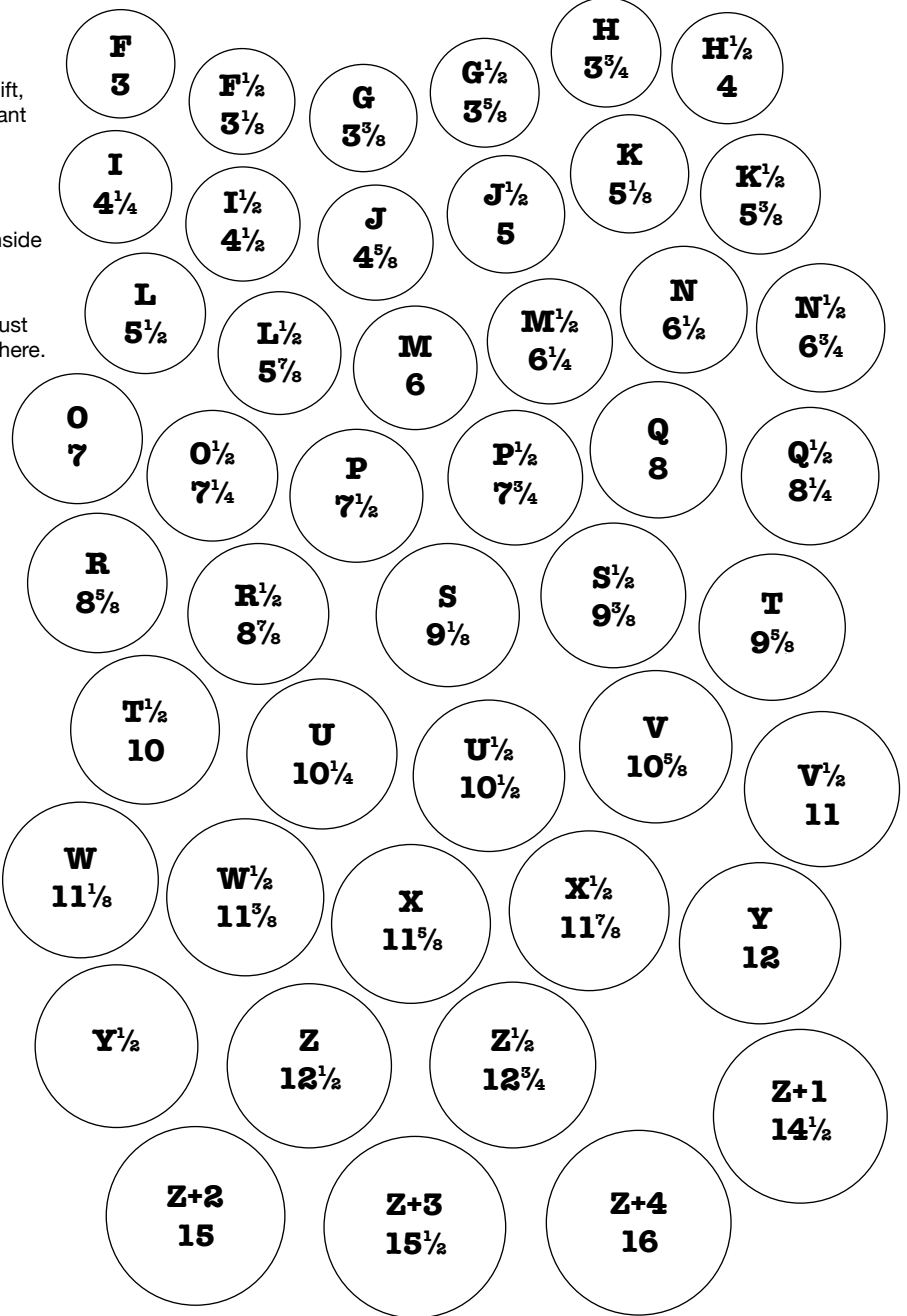

Use a ruler to check the scale of your print.

The Ring Method

This is the perfect method if you'd like to buy a ring for a gift, but you don't know the person's ring size and you don't want to ruin the surprise by asking them. Here's what you do.

- Get hold of a ring from their current collection of rings.
- Place the ring on one of these circles.
- The correct circle is the one which fits right against the inside edge of the ring (close your one eye for best results).
- If you don't get an exact fit, **don't panic!** With all the circles to choose from this is highly unlikely, just give us the two closest sizes and we'll figure it out from there.

The Floss/String Method

This is probably the least accurate method, but if you really don't care for cutting out the paper sizer below, you can do the following:

- Simply cut a length of floss or string to wrap around the relevant finger and find the length that makes exactly one loop around.
- Measure the piece of floss or string, using the chart below for reference.

SIZE	CIRCUMFERENCE		DIAMETER	
	inches	mm	inches	mm
3	1.74	44.2	0.55	14.1
4	1.84	46.7	0.59	14.9
5	1.94	49.3	0.62	15.7
6	2.04	51.8	0.65	16.5
7	2.14	54.4	0.68	17.3
8	2.24	56.9	0.71	18.1
9	2.34	59.5	0.75	18.9
10	2.44	62.1	0.78	19.8
11	2.54	64.6	0.81	20.6
12	2.64	67.2	0.84	21.4
13	2.74	69.7	0.87	22.2
14	2.85	72.3	0.91	23.0
15	2.95	74.8	0.94	23.8
16	3.05	77.4	0.97	24.6

The Paper Sizer Method

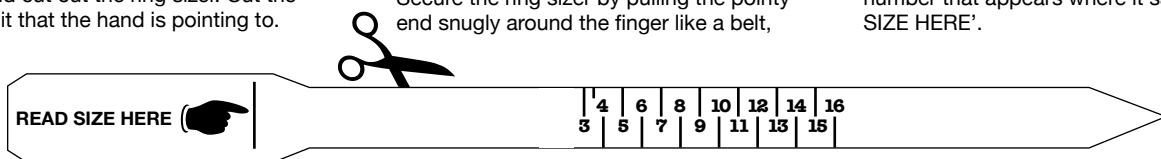

If you enjoy cutting things out, then this method is the one for you. Just don't run with the scissors!

- Print and cut out the ring sizer. Cut the small slit that the hand is pointing to.

- Place the ring sizer comfortably around the finger by slipping the pointy end through the slit, numbers facing out.
- Secure the ring sizer by pulling the pointy end snugly around the finger like a belt,

just enough for it to still be able to slide around - not too tight and not too loose.

- Your approximate ring size should be the number that appears where it says 'READ SIZE HERE'.

The "I've always fancied myself as a bit of a spy" Method

- Get hold of a ring to use as a gauge.
- Get a bar of soap and cut it in half.
- Place the ring between the two halves of soap and squeeze them firmly together, making an imprint.
- Remove the ring and send the soap to us. We'll know what to do with it.
